

## EVO-W108USB

USB Super G Adapter(108 Mbps.)

WEP Security of 64/128/256 bits.

Chipset Atheros

USB interface

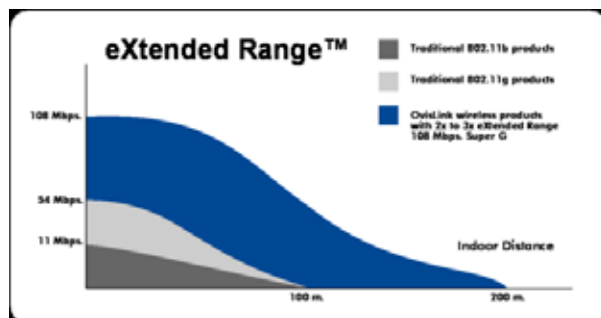

Index

5.5

The EVO-W108USB is a wireless adaptor of 108 Mbps. CardBus. This adaptor incorporates Super G technology, which can reach transmission speeds of 108 Real Mbps. when communicating with other Super G devices.

**Completely compatible with 802.11b and 802.11g standards.**

They also incorporate eXtended Range™ technology, which duplicates the coverage.

### Características técnicas / Especificaciones:

#### Technical features:

- **Standards:**
  - IEEE 802.11b
  - IEEE 802.11g
- **Chipset:** Atheros
- **Interface:** USB 2.0, 1.1 and 1.0
- **Antenna:** Internal
- **Radiofrequency:**
  - IEEE 802.11b (DSSS)
  - IEEE 802.11g Orthogonal Frequency
  - Division Multiplexing (OFDM)
- **Transmission Rate:**
  - 108/54/48/36/24/12/9/6/11/5.5/2/1 (Auto Rate Sensing)
- **Wireless frequency range:**
  - 2412 ~ 2484 MHz ISM
- **Support:**
  - WEP encryption (64/128/152 bits)
  - Security: WPA and TKIP/AES.
  - IEEE 802.1x
  - Wireless Roaming.
- **Range of coverage:**
  - Inside: 35 - 100 m.
  - Out: 100 - 300 m.
- **Operative system support:**
  - Windows 98SE / ME / 2000 / XP
